

# WE PROVIDE THE TOOLS & TRAINING to enhance your school transportation safety.

Transporting students safely is a complex process. For most parents in your school district, the quality of transportation services becomes the measure for determining the success of the district as a whole!

Let PTSI's experienced consultants move your transportation department from safe to safer. Be proactive with your transportation concerns and build community confidence in school district leadership.

PTSI can provide you with consultants who have **extensive experience** in transportation program management, evaluation and enhancement.

*Optimize safety and efficiency.*

Not sure your transportation services are the safest? PTSI consultants will assist your school district to identify potential at-risk conditions, minimize liabilities, increase efficiencies and optimize safety for the children under your charge!
