

Training the TRAINER

School Transportation Training Program

LEVEL III:
Driving Course for
Behind the Wheel
Trainers: Putting It
All Together

PARTICIPANT COMMENTS:

“The Instructor’s passion for this industry is seen and heard with her actions and words. That is inspiring to any of us who cares about what we are doing in this industry. Thank You and PTSI for making a difference!”

“Excellent! I have a lot to add to my training program!”

“I have learned so much from the Instructor and would like to thank her for all the hard work and knowledge shared with us.”

LEVEL III: Driving Course for Behind the Wheel Trainers: Putting It All Together

(Pre-requisite: Levels I & II)

Tuition: \$245 per person

COURSE OVERVIEW

Instructors and Trainers will put the skills learned during PTSI’s Levels I and II Training the Trainer Workshops to practical use on the driving course.

This one-of-a-kind Workshop teaches trainers *how* to teach, by providing the knowledge and skills needed to train drivers correctly the first time, instead of learning on their own or by trial and error. Trainers can feel proud about what they already know, but Level III will make the job easier by becoming a more effective trainer – and will increase safety within your operation and your state.

The Level III Workshop includes interactive classroom and Behind the wheel sessions

COURSE OBJECTIVES

By the conclusion of the Level III Workshop, trainers will know and understand:

1. Behind-the-wheel training – interactive, hands-on
2. How to set up driving course
3. Coaching skills to take a driver through the driving course without incident
4. Ultimately prepares the new or veteran driver for on-the-road driving.

Trainers will receive a certificate from PTSI for each course level completed.
